【構成メモ】 北海道にある湖の魅力

Hello, everyone!

Do you know how many lakes and ponds are in Hokkaido? The answer is 54! Now I'll inform you of the enchantments of three different lakes in Hokkaido for you to visit.

Lake Shikotsu is a lake which is not (あ) during the winter and the size is about the same as the inside of the Yamanote Train Line in Tokyo. A tour guide told me "About 10 million people live on the inside of the Line, but no people live here (い) it is the same size. Isn't it interesting?"

Lake Mashu, which is on the east side of Hokkaido, is famous for the clearness of its water. It has been ranked No. 1 for (う) water above all lakes in the world! I've visited and seen the beauty of the water. It looked like a mirror and reflected the woods around it.

Lastly, I strongly recommend you visit Lake Kussharo. It is the largest Caldera lake in Japan. You can appreciate "Un Kai" (sea of rolling clouds) on the lake. The sea of rolling clouds is made from the water in the air surrounding the lake. (え) it from the bottom, it is only clouds, but from the Tsubetsu mountain pass, you can enjoy it. It's like a bed of clouds! You can also enjoy the hot springs on the lakeshore. Once you (お) in the sand on the coast, hot springs bubble up. Some people say an unidentified mysterious animal called "Kusshi" lives in the lake. Why don't you try discovering the mystery with me?

I enjoyed staying at a hotel in Niseko with my family last October. The weather was really nice, even though it was a little cold. We got what we call "the free passport of three hot springs" when we checked in at the hotel. We were really happy. We soon went to the first hot spring, where we saw some foreign customers enjoying the open-air bath. I wondered whether such people were traveling around or working there. With refreshed feelings, we went back to the hotel to have dinner at the restaurant. Surprisingly, we could not see many tourists or families eating. Then I found the time for each family's dinner was already decided to avoid many people gathering in one place for a long time. The next hot spring was in the hotel where we stayed after that. We did not go to all the hot springs with the passport, but we really enjoyed the clear autumn sky in the open-air hot springs.
